THE DEADLY MOSQUITO.

"It is sufficient to say: Protection from the disease-bearing mosquito affords complete immunity in ague in all its forms . . . Yellow fever, like Ague, has been shown to be communicated only by a Mosquito."—*Times*, 8th September, 1904.

Against this deadly insect Science has at last provided us with a protection equal to the stings of

ANTIKITO CREAM

(Regd.)

This wonderful preparation—which is most delightfully refreshing to use—is the outcome of long laboratory research. During the last five years it has been thoroughly tested in all parts of the world. By its use the fatal mosquito, as well as Flies, gnats and all flying insects, are set at defiance. It is absolutely infallible as a preventive, and is guaranteed to be free from carbolic and other deleterious ingredients. It is neither sticky nor greasy, and one application to the exposed parts affords protection for hours. Invaluable for hospital use, and should be in the kit of all expeditions. It is better than Quinine. Protects you from flies.

ANTIKITO CREAM is manufactured under expert supervision in the Syndicate's own laboratory, and is put up in two sizes. Proprietors:

ANTIKITO SYNDICATE, LTD.,
