THE RUSSIAN STRIKES.

THOOPS FIRE ON WORKERS

FRUSH DISORDERS FEARED.

Warsaw, February 10
One thousand, five hundred strikers of
Sosmorke, seeing the Catherine Works illumi-nated, thought that work was proceeding.
They started towards the building, when the solidiers fired from the sindows, latting many
of the strikers.

(Buter.

Sr. Perrassuran, February 10.

The men of the Puriloff and Franco-Rus in works here have stated an eight hours day on their own account As the employers have relused to countenance the forecased, the strike was remest to day, 12,000 men being out. The traps are in readiness to prevent the strike spreading.

Free thousand strikers have paraded here today. They induced four other factories to join them, but dispersed quietly on encountering the trops.

Wassaw, February 10.
There was a fresh collision at Sessonice last eight with the troops. The latter fixed on the node as the strikers were extinguishing the media turness. One hundred persons were illed or woneded.

St. Petersburg, February A strike has been declared in the Purks. Fresh disorders are feared. (He

SIR W. WILLCOCKS' EXPEDITION.

As we announced a few days ago, Sir William Willooks has returned to Cairo from his important expedition to the Euphrates and the Tigris. He has kindly given us the following statement of the conclusions he has arrived

ratement of the conclusions he has arrived as b^{-} . The Tigris and Empirates have apparently enough water to allow of the perennial irrigation of 5 million acres and of keeping navigation open to the sea. The hydraulie problems are not so hard as those on the Nile; but comprehensive projects must be taken up to secure the canala sagainst obliteration by silt, which has often ruined Eshylonia. I saw the Tigris in places only 140 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and of feet deepand the Euphrates 40 feet wide and feet deepand feet deepand the Euphrates 40 feet wide and feet deepand feet The Tigris and Euphrates have apparently

ZIZINIA THEATRE.

ARMY AND NAVY. (FROM OUR CORRESPONDENT.)

(FROM OUR CORRESPONDER.)

The appointment of P. M. O., is Reypt will be filled by the posting of Surgeon-Lieutenant-Colonel James Magill. O. B., senior medical officier of the Coldatrasm Guarda. Lieutenant-Colonel Manes Magill. O. B., senior medical officier of the Coldatrasm Guarda. Lieutenant-ment in 1835, and resolved his present rank in May, 1896. He is no stranger in Reyry, for he accompanied the Guarda Camel Corps in the Nile Expondition 1834-55 and was severely wounded in the fiseres action at Abou Kles, near where Colonel Fred Burnshy fill fighting. He was with the Colonies of Referent May 1996. He was with the Coldstrams in the Boer Wez, and was present at the actions of Balmont, Enalis, Modder River, Magermoticin, Poplar Grove, Drisfontein, Vot River, Zand River, Johannesburg, Pretoria, Diamond Hill, Beliss-, and Komati Poort, and the succeeding campaign. For his services he was mentioned in department of the Colonies of the Colonies

retreachment to the very verge of safety. We have the authority of Mr. Arnold-Porster for stating that 120 of the new 184-pounder field gust—just just the new 184-pounder field gust—just just that 120 of more will be delivered in 1-1906. That is a great-histen if 120 guns can be produced for India in a few weeks, why wait nearly two years for the balance! The haste in providing guns for India is based on Mr. Balfour's now historic statement that "the problem of the British Army is the problem of the defence of Afghanistan."

The battleship "Illustrious" has arrived at Portsmouth to have one of her 12-inch bar-bette guns replaced by a new one.

bette guns replaced by a new one.

One of the objections to the late distribution of the feet was that in a great number of foreign countries the tremendous naval power of Great Bigtian was not fully mongh realised. On many shores a small cruiser or obselete gunboat represented—or rather misrepresented—the premier naval power. That will now be all changed. The second cruisers squadron, which consists of eight powerful 24-knot structured or the consists of eight powerful 24-knot structured to eight powerful 24-knot structured eight powerful 24-

ROYAL MALTA ARTILLERY.

The news that the company at Alexandria and the detachment at Cairo of the Royal Malta Artillery are leaving Egypt for their The news that the company at Alexandria and the detachment at Cairo of the Boyal Malta Artillery are leaving Egypt for their native nich as been received with much regret, as during the five years the R.M. A. have been in Egypt they have made themselves very popular. They came been in January, 1900, two companies having the sense of the Boyal Carlot of the Carlot
