CHURCH HOUSE SCHEME FOR ALEXANDRIA.

The ordinary annual general meeting of the voters of St. Mark's Church is postpone till the 16th February at 5 p.m. In addition to the matters already advertised for discr the meeting will be invited to decide on the matter of the proposed Church House.

The following is the text of the Consul-General's Memorandum on the subject:

The following is the text of the Consul-General's Memorandum on the subject:—
On the 5th of May 1004 the Charch officers of St. Mark's Church beld a meeting and
passed a Resolution as follows:—
"That it is highly desirable to provide a permanent residence for the Chaplain of
St. Mark's and All Saint's Randeh in the immediate vicinity of the former church,
The present Chaplain, the Rec. Canon Ward, M.L., finds it extremely difficult to get
suitable rooms at Alexandriat at a reasonable rental, even at a considerable distance
from the Charch, and it seems that this difficulty is not Bledy to diminish in the
immediate future.

THE SLEEPING SICKNESS.

Captain Greig, I.M.S., while passing through Cairo on his way home from Uganda, gave an interesting lecture before a very large and representative audience at the School of Medicine last Saturday afternoon. The locturer is a member of the Royal Scotiety's Commission, which has been studying the distribution and causes of "aleeping sickness" in Uganda and the neighbouring countries for the fast eighteen months. The work of the Commission has been eminently successful, for, the cause and the mode of infection have now been definitely ascertained, and it has become possible to diagnose the earliest stages of the order to diagnose the earliest stages of the carried measures to prevent the apread of this certible and insidious disease.

The malady was first, described in West Africa as long age as the year 5000 to the read cause was not discovered until a hundred years later by the Commission, of which Captain Greig was a member, in Uganda. The discose observed in Uganda were recently as 1901, its introduction there being due to the opening up of trade routes. It has already caused terrible and most coulty mortality, for the sparsely populated Protectorate has already 1010,000 human beings by the ravages of this discase, and at the present time the monthly death rate from this cause in Uganda is 1,000.
