Coughs **Bronchitis Lung Troubles**

The Sanday closing movement is growing in force in Egypt. A few stays ago we aunounced that at Aiexandra the efforts of the Interna-tional Emplyés' Society to bring before the public, as well as the employer, the necessity for one day's respite from work during the week, had met with consistenties success, and that from the middle of last month, the prinweek, nan met with comosterable success, and that from the middle of last mouth, the principal fancy goods dealers, jewellers, stationers, letc., in Alexandria had decaded to close their extealbishments on Sunday, thus setting free; their employées for the day. Carro is following the example set by Alexandria and from the last nat, until the end of October all the reasy-made cotoning and tailoring establishments in the last nat, until the color of Sundays. This is the first time tuat this class of tradespeul have joined the movement, and it is a very generous act considering that so many of them a rare Jews. Devt Sir,—As a true-born Englishman I protest against the remarks made by your correspondent "Humanity." I have travelled in every part of England and frequently mixed among the power classes, and I can safely say that ninety-mip per cent. of English mothers dearly love their children and are very careful as to the proper feeding of them. "Humanity" may have read or beard of a case where a child died through being given fish and gir, but to try and make foregoene believe that English mothers are carefules of their children is as far from the troth as I am from the North Pole.

Our Arms and Navy don't look like men who have been brought up on fish and gir, and the safe that the safe is the safe that the safe is a safe from The Tare's tab pick sea mustic.
